17TH ANNUAL

TOURNAMENT HISTORY

The 1st Annual Ihme Family Golf Tournament was held in 2003 at Springhill Golf Course with 64 players participating. At the conclusion of that tournament there was \$400 remaining. It was decided by the Ihme family to donate those funds to Children's Hospital Colorado. Excitement increased with the 2nd Annual Tournament, where 92 players took part and \$1400 was donated to Children's Hospital Colorado. It was then decided to make the tournament an official fundraiser for Children's Hospital Colorado. The tournament outgrew Springhill Golf Course and University of Denver Golf Club at Highlands Ranch has hosted the tournament since, **with the help of many friends, family and the wonderful ambassadors at Children's Hospital Colorado, we are extremely proud to say that the Ihme Family Golf Tournament benefiting Children's Hospital Colorado has raised over \$276,000 to date! ---**

Thank You!

Rich Ihme 1965 - 1985

The Ihme Family would like to thank all participants, vendors and volunteers for taking part in our Annual Golf Tournaments. We deeply appreciate your support for this worthy cause. All net proceeds benefit Children's Hospital Colorado in memory of Rich Ihme, son and brother of your organizers, who lost the battle with leukemia 34 years ago.

-The Ihme Family,

2018 Ambassador Maya

2019 Ambassador for The Children's Hospital

Each year, special Children's patients are nominated to serve as ambassadors in our community to share their stories of hope and perseverance with the rest of us.

The children chosen to be 2019 Children's Ambassadors are living proof that Children's Hospital Colorado, with a focus on specialized care for kids and teens, can make all the difference.

Jalen Thompson

Jalen (Age 8): When Jalen wasn't feeling well, his parents thought he was just fighting a virus. Then Jalen's lymph nodes became swollen and his legs started hurting so much he could barely walk. A blood test soon revealed a devastating diagnosis: Jalen had leukemia. He came to Children's Hospital Colorado to immediately begin treatment. Jalen will continue chemotherapy until April 2021, but in the meantime, he wants to help other kids fighting cancer. Jalen is a master Lego® builder who dreams of someday becoming President of the United States.
